## Provide wider access to info to stakeholders

**KUALA LUMPUR:** The Securities Commission Malaysia (SC) has called on companies to voluntarily widen access to information to stakeholders.

Its chairman, Datuk Ranjit Ajit Singh, said this could be done by observing transparent practices and transmitting complete, meaningful and timely disclosure of information.

As a regulator, he said, SC would prefer not to introduce more rules or regulations.

However, it would closely scrutinise these practices and disclosures and make it a priority to level the playing field by ensuring that investors had easy and timely access to information, he said.

"The disclosures made should not contribute to confusion to the market - rather provide it with the necessary clarity on the company's business and financials," he said in his keynote address at the Malaysian Investors Relations Association (MIRA) 2012 Malaysia Investor Relation (IR) Award Ceremony here yesterday. - Bernama
