# PROGRAMME OBJECTIVES

Join us on 29 September for a live webinar where we will discuss the latest trends, developments, and best practices in financial and ESG reporting.

This March, Tangelo reviewed the most recent annual reports of Malaysia's largest companies – those listed in the FTSE Bursa Malaysia KLCI index – and published their findings in the research paper 'The State of Online Annual Reporting in Malaysia'. In this webinar we want to dive a little deeper into the research.

---

## PROGRAMME OUTLINE

During this webinar we want to share with you:

- the findings of the research – how Malaysian listed companies report online;
- showcase 2 use cases:
  - ❖ CLP Group, Hong Kong – their “online first” 2020 Sustainability Report
  - ❖ AGL Energy, Australia – FY20 Sustainability Data Centre
- the best way to collect and manage your (ESG performance) data
- the buy-side perspective of ESG performance data – what information is needed to assess ESG risks and opportunities.
